

**JOIN US AS CAMPUS
RESIDENT AT
THE HEALTH &
INNOVATION DISTRICT
AMSTERDAM**

**YOUR PLACE TO
CONNECT, COLLAB &
INNOVATE IN HEALTH**

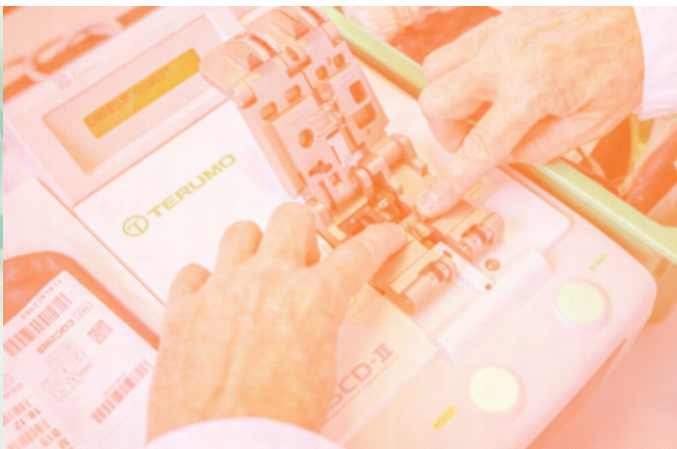

CONNECT

The primary objective of the Hid is to cultivate a symbiotic ecosystem housing complementary start - or scale ups. Campus residents are not only embedded in a conducive environment for learning but also can leverage existing research activities through the extensive knowledge resources and support available. Hid promotes a culture where knowledge transfer and collaboration are not just encouraged but are the norm. This is further demonstrated through initiatives such as the shared Facility for research & development and our Sanquin Academy.

COLLAB

As a resident of Hid, you become an integral part of a robust network of health innovators, specialized in the biotech and pharma field. Our focus spans across various spheres - from groundbreaking research in hematology, immunology, oncology, and transfusion medicine to the development of innovative treatments and advanced diagnostic tools.

We actively invest in connecting, sharing knowledge, and creating opportunities for our community to learn and accelerate their innovation to the patient and/or market.

INNOVATE

Our expertise in the biotech and pharma sector fosters the development of groundbreaking solutions in life sciences. We facilitate collaboration and provide access to a wide range of expertise, supporting the innovation process.

Hid is also in the process of developing an tailor made acceleration program specifically for start ups in the Biotech and Pharma field, designed to expedite growth by connecting residents with investors and industry experts. This further enhances the capacity for research, propelling progress in the health sector, addressing societal challenges, and improving patient outcomes.

IN HEALTH

With its unique focus on hematology, immunology, oncology, and transfusion medicine, Hid aims to address societal challenges and improve patients' lives. The organization contributes to this mission by supporting innovators in accelerating their solutions for patients and society, thereby creating a significant impact.

The Hid achieves this by providing innovators access to its network, research and development facilities, regulatory, intellectual property (IP) and fundraising expertise, and by sharing this knowledge. By placing connection, collaboration, and innovation at the forefront, Hid encourages progress in health.

AMSTERDAM

Located in the strategic and accessible location of Amsterdam, Hid takes advantage of an excellent transportation network and proximity to Schiphol Airport. This facilitates the effortless movement of companies, researchers, and healthcare professionals from around the globe.

Amsterdam is renowned for its rich educational and research environment. Numerous universities, research institutes, and the European Medicines Agency (EMA) are situated within the city, creating an ideal knowledge and business climate for your venture.
